

As an Agile Project Manager, I lead custom e-commerce development (Shopify, BigCommerce), optimize LLM agents for business outcomes, and drive digital growth via SEO/Google Ads. My strategic approach, honed over 4 years in financial services (RBC, Scotiabank), enables me to guide complex technical projects and maximize business value. With full-stack development expertise (Ruby on Rails, JavaScript, SQL), I seamlessly bridge technical execution with overarching business objectives, ensuring high-quality, scalable solutions
